Work Experience

Android Developer/Entrepreneur/Founder   December 2012 – Present

StaleyDigital™

Founder and lead application developer and designer. Developing a variety of Android powered applications for both Tablet and Mobile devices. Also specializing in web and application design & consulting services for User Experience (UX)/User Interface (UI), and custom graphics.

Web Analyst/Programmer II   September 2007 – December 2012

Eastern Michigan University - *Division of IT (formerly ICT Division)*

Worked as an Enterprise Applications Administrator web developer, my.emich university web portal administrator, in-house web applications development, in-house system and vendor system support and integration, along with Single Sign-On implementation.

- Worked with some the following technologies while at EMU.
    - ellucian Luminis™ Portal Platform
    - ellucian Banner™ - Including Self-service Banner™ (SSB)/WebTaylor™
    - ellucian Banner™ - Powered by Oracle™
    - Integration of Web Applications to utilize University's Novell LDAP
    - Integration of Web Applications to utilize the Luminis LDAP
    - Liferay™ Enterprise Edition Web Platform – Server Administration
    - Business Objects™ XI Enterprise Reports (Server Administration and Client Support)
    - Appworx Administration (now owned by UC4)
    - CrystalReports™ 8.5, 9 & XI
    - Adobe ColdFusion™ Reports
- Experience with compliance regarding these Federal requirements in Higher Ed.
    - Family Education Rights to Privacy Act of 1974
    - Americans with Disabilities Act of 1990, as amended.
    - ADA Amendments Act of 2008
    - Title IX - Education Amendments Act of 1972

Senior 4GL Developer   July 2006 – August 2007
Minacs Worldwide - (now Aditya Birla Minacs)

Worked on a team that develops SQL & PL/SQL scripts and ColdFusion web-based applications to maintain the internal business systems to support daily service level agreements. Developed web-based applications and web sites for client/customer systems. Use my knowledge of systems and computer software to analyze, troubleshoot and resolve issues and problems. Also used my experience to develop new computer software & services.

Duties also include administration of the ERP Appworx System.

Student Programmer   September 2001 – July 2006
Eastern Michigan University - ICT Division (formerly University Computing)

Maintained and developed scripts for Oracle powered Banner system. Fulfilled List/Label/File Download/Data Extract requests fulfill the University's needs. Help and supported the other developers in the ICT division. Assisted with questions concerning EMU and ICT policies on data and standards. Was a member of the eFellows and 2006 Tech Fee Committee.

B.S. Degree – Networking & IT Administration   September 2001 – June 2007
Eastern Michigan University – College of Technology
